THE BRAINLINE SYLLABUS

Brainline has developed its own Grade 1–3 programmes, based on the CAPS requirements of the Department of Basic Education. Our integrated programme focuses on learning through play and learning activities, and consists of a Home Language, a First Additional Language, Mathematics and Life Skills. This programme allows the parent/guardian to take control of their child's most precious developmental years from the comfort of their own home.

PROGRAMME OVERVIEW

The programme consists of a day-to-day, scheduled programme that allows your child to be actively involved in developing their skills in the prescribed learning areas.

The lessons and resources contain clear guidelines, enabling you as the parent/guardian to guide your child through the required themes.

The programme content is available as printed, full-colour, theme-based modules via Credo Books, or as printable ebooks via Snapplify.

Mid-year and/or year-end Optional Formal Assessment activities are available. Your child will receive a valid report if enrolled for either of these assessments.

SELF-ASSESSMENT HOW DOES IT WORK?

Self-assessment items are included in the programme. You, the parent/guardian, will decide when your child should complete these items.(PATs) and practical examinations.

You, the parent/guardian, are responsible for assessing the items according to the marking guidelines provided.

FORMAL ASSESSMENT HOW DOES IT WORK?
